

Windows®. Life without Walls™.
Lenovo® recommends Windows 7.

lenovo®

WORRY-FREE COMPUTING.

The Lenovo B560 with the Lenovo Security Suite built-in takes the stress out of securing your PC and data.

Your notebook's security must not weigh on your mind. With the Lenovo® B560 notebook you don't have anything to worry about. Built tough and secure, it's powered by the latest Intel® Core™ i5 processor with Intel® Turbo Boost Technology. The Lenovo B560 lets you protect your work with the Lenovo Security Suite—a set of security tools that encrypt data, protect your password and prevents intruders from breaking into your PC. A fingerprint reader ensures only you access your data. The USB Port Locker makes it difficult for anyone to copy or transfer data via the USB port. Plus YoSafe, a data encryption feature encrypts and hides data in the hard disk drive which opens and closes only to your commands. Other intelligent features include the OneKey® Rescue system for quick data backup and recovery and Lenovo ReadyComm for advanced networking and internet management. **So whatever your idea of fun is, the Lenovo B560 makes it possible.**
